## PROJECTS / OPEN-SOURCE

---

<b>Online Voting Management System   Link</b> It is an application which allows users to cast votes by creating elections and choosing candidates for a particular user. It is a web-based platform designed to facilitate secure, efficient, and transparent voting processes. It enables voters to cast their ballots remotely, eliminating the need for physical polling stations and reducing the administrative burden on election officials.	<i>Javascript, NodeJs,HTML5,CSS3</i>
<b>Portfolio Website   Link</b> This is a portfolio website of me including all the details about me like my hobbies, education, schooling etc.	<i>HTML5,CSS3,Javascript</i>
